Pre Degree • 1995-1997

Completed Pre Degree course under Calicut University, Kerala, India.

Key Skills

I like the problem-solving aspect of the design. My philosophy has always been to first make things smart and then make them pretty. That's my work mantra. Regardless of whether it's an illustration of the things I'm doing now, I have managed web and interactive communication projects from initial consultation through successful launching with the ability to handle various projects at the same time and complete them by given deadline.
